

MicroSol® 642RX

Premium, Medical Grade, Cutting Fluid

The latest technology in metalworking fluid, specifically designed for the medical industry. Boost productivity in your medical manufacturing with our new TRIM® MicroSol® 642RX.

THIS NEXT GENERATION COOLANT IS FORMULATED WITHOUT THE USE OF:

- Substances of Very High Concern (SVHC) (Candidate List Revised 17 January 2022)
- REACH Annex XVII Restricted Substances (Revised 24 January 2022)
- Carcinogenic, mutagenic, reprotoxic (CMR) Substances
- TRI toxic chemicals (SARA 313)
- Animal derived raw materials
- Chlorine and other halogens

TRIM® MicroSol® 642RX meets the most stringent medical requirements. It provides excellent lubricity, tool life, and surface finishes, while being low foam and easily removed in wash processes.

TRIM® MicroSol® 642RX ADVANTAGES:

- Superior ferrous and nonferrous corrosion protection
- High lubricity for tool life and productivity improvements
- Low residue and clean running
- Excellent foam control
- Ideal for machining medical grade materials, including various aluminum alloys, stainless steel, titanium, and nickel-based alloys

PUT US TO THE TEST!
