

TRIM® E860

Low-foam, High-lubricity Emulsion

The stable and predictable performance of E860 makes it a first choice for precision and consistent parts manufacturing across a broad range of ferrous and non-ferrous metals.

TRIM® E860 ADVANTAGES:

- Very wide application range
- Works very well in general machining
- Good hard water tolerance
- Very stable formula provides good operational life with consistent performance
- High tramp oil resistance for easy oil removal and longer coolant life
- Good balance of cooling and lubrication providing excellent tool life and surface finishes
- Extremely stable fine particle size emulsion allows for reduced carry-off and super-high penetrability to get the fluid to the point of cut

TRIM E860 is a high-quality, heavy duty emulsion for use on a broad range of ferrous and non-ferrous metals, effective in most cutting and grinding operations.

FORMULATED WITHOUT THE USE OF:

- Biocides
- Phenolic compounds
- Sulphur
