

Reliable Long-term VOC-Free Corrosion Protection You Can Trust

WEDOLiT AN 9921-100 is a cutting-edge formulated corrosion inhibitor for steel and other metals, which offers long-term indoor storage protection.

Its low viscosity allows it to be used as an immersion bath for the treatment of hollow parts such as tubes and pipes.

It can also be applied by spraying, flooding or by rollers. Due to its high oil content, it can also be used as a straightening oil.

Choose WEDOLiT AN 9921-100

- > Ideal for overseas transportation
- > Suitable for use with VCI foils. Full corrosion protection is given through the forming of a solvent-free film on the metal surface and therefore parts must be packed into storage boxes with foils, before the solvent evaporates
- > Can be used as a straightening oil or for light forming processes after the solvent has evaporated
- > Stable against acidic and alkaline contamination
- > Excellent bath life
- > Excellent material compatibility
- > Easily removable with organic solvents (cold cleaners) or water-miscible alkaline industrial cleaners
- > Flash point: > 100°C
- > Humidity test: 60 cycles
- > Salt spray performance: 24 hours
